

¹If the comprehensive panel is ordered, AQP4 CSF testing is not performed

Abbreviations

AMPA	AMPA receptor	GAD65	Glutamic acid decarboxylase 65-kilodalton isoform
ANNA	Antineuronal nuclear antibody	IFA	Indirect immunofluorescence assay
AQP4	Aquaporin-4	LGI1	Leucine-rich, glioma-inactivated protein 1
CASPR2	Contactin- associated protein- 2	NMDAR	N-methyl-D-aspartate receptor
CBA	Cell-binding assay/cell-based assay	PCCA	Purkinje cell cytoplasmic antibody
ELISA	Enzyme-linked immunosorbent assay	RIA	Radioimmunoassay
GABA-BR	Gamma aminobutyric acid receptor, type B	VGKC	Voltage-gated potassium channel
